-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 5/6/05 have been fully considered but they are not persuasive. Applicants argue that Evans does not disclose an aperture at each leg portion. Examiner respectfully disagrees. Evans discloses each leg having an aperture see illustration of fig. 8C below.

A first member (111)

A first trunk portion (A)

A first midsection (B)

A first opening (C)

A first aperture (D)

A second member (115)

A second trunk portion (E)

A second midsection (F)

A second opening (G)

A second aperture (H)

A seal ring (113)

A cover and material of the cover (see col. 7 and incorporated reference).

A sealing relationship is defined as in which the second trunk (115) is coaxially contained within and sealed against the first trunk portion. Member (115) is contained within and inherently sealed against the first trunk portion (A) of member (111).

Art Unit: 3731

Member (115) must expanded to press against the trunk portion of member (111) in order to keep it in place.

Note : The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Evans et al.'s device which is capable of being used as claimed if one desires to do so.

Applicants argue that Hojeibane does not disclose a sealing relationship between the modular members at all and Evan does not disclose overlapping engagement of trunk portions of a multi-component device and there is no suggestion to combine the references. The arguments are persuasive. Therefore, the 35 USC 103 of the previous office action is withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3,5-28,30-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Evans et al. (5,755,773). Evans et al. disclose an endoluminal device as claimed (see illustration under ***Response to Arguments*** section above).

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
